## WANTON DESTRUCTION

OUR attention has been drawn to what looks like the most glaring example of wanton destruction, and vandalism, that we have heard of for some time. It is in connection with the deliberate destruction of shade trees on Fifth Street. Several good sized trees have been completely stripped of their bark from their branches down to their roots. These trees will die. Nothing can save them. If this were done by small, innocent children it would be overlooked, but the trees are stripped to a height which could only be reached by those who should know better. If the culprit could be found they should be punished severely. With the very apparent need for such trees in our prairie towns it is hard to understand how anyone

## STAMPED OVERDONE

The prominence given to the Stampedes in connection with the annual fair is making many wonder if the real object of the fair is not being sacrificed for the stampede.

In Alberta in recent years stampedes are as common as Sunday school picnics. Every little settlement has one and some of the smaller ones are more interesting than the bigger ones.

A few hours of stampede numbers is enough to last the average person for a week. But when the biggest part of a day's program every day for week at our big central fairs is made up of steer riding and bucking contests, it becomes tiresome and monotonous.

There is no doubt that the overdoing of the stampede business is detracting from the real value of the fair.

We venture to say that any little fair in a town of a thousand population in Manitoba or Ontario has more real enthusiastic exhibitors in the cattle, horses, poultry, roots, vegetables and produce classes, than there were at the Calgary fair this year. There were some good entries in these classes at Calgary but they were all by a few exhibitors, and these from among the largest breeders on the continent. The small farmer was either crowded out or was not encouraged to exhibit because so much time, energy, expense and advertising was devoted to the stampede end of the program. Because of this it can safely be said that the fair end of it was a failure.

If the government is going to give grants for fairs they should see that the fair comes first and the other attractions used as side issues—not the other way about.

BOOMING BUCHANAN  
—FOR SENATE

HIS friends in Lethbridge and district feel confident that W. A. Buchanan, editor of the Herald, will be appointed a senator to fill the Alberta vacancy caused by the death of Senator De Veber. There could be no

more popular appointment in Alberta. Mr. Buchanan has had a wide political experience. He is thoroughly conversant with the needs of the West and on many occasions has offered suggestions for the solution of some of the problems with which the west is confronted from time to time.

While it would be unfortunate to lose a man of Mr. Buchanan's calibre from the more active field of politics, his appointment to the Senate would furnish an opportunity for him to still be of service to the country; a service which he cannot give to the fullest extent in the wider field because of the handicap under which is laboring, on account of his impaired hearing.

## A FEDERAL ELECTION

Will there be a federal election before another session of parliament?

The federal ministers are smiling blandly and saying little.

But the recent session of the Commons was brought to a conclusion under a condition of affairs which gives ample justification for the conclusion that the federal government has every intention of appealing to the people before the necessity is upon it of facing another sitting of the House.

Practically all of the vital issues on which the people of Canada confidently hoped for action from the past session, remain unsettled. They were dealt with in a tentative way by the introduction of bills that were left suspended in the air as bait for the votes of the people. With them, the Premier and his followers will fish for the support that will return them to power. Once safely back in office the vital issues will be left to take care of themselves. If the government goes into another session with these matters still facing it, it will be under the necessity of settling them one way or the other, and this is just what the government is not anxious to do before an election.

Everything points to a federal election this fall.

Mrs. Agnes MacPhail, our only woman M. P., has stated that the work of woman is to humanize man in order to make civilized life with him possible. It will be interesting to see the finished product which Ames produces when she changes her name. Our lady member had better be careful or she'll be getting William Jennings Bryan and Clarence Darrow on her trail.

A town prospers in proportion to the horse-power and horse-sense of its boosters.

Fine feathers don't make fine birds; neither do fine pictures in a catalogue make fine goods.

Ask the next peddler that sells you something where he will be when you want to make an adjustment on your purchase.

Advertising opens the doors of knowledge to the buying public; and the public wants it, expects it, and is disappointed if it does not get it.

If there's anything that proves the truth of the old saying, "anticipation is greater than realization" it's in ordering an article from a mail order house.

The community ought not to stand for newspaper that does not stand for the community; and nothing but an unwarranted modesty keeps us from stating the reverse of the proposition.

## The Value of Poetry

Guard well the word, O Poet,  
That flows from out thy breast.  
The mob will take each sentence  
And twist it in the mart.

Thy speech is strange and subtle,  
Thy words like music ring—  
And in the mart the rabble  
Of cent and dollars sing.

Olympian birds who sing  
Divine ideas below  
Which always find us young  
And always keep us so.

Poets are free, and they make their  
Lovers free; at the touch of his imagination  
words blossom into beauty.

A true poet is the most worthy  
gift to a nation, for he feeds  
the soul of the people.

More than authors, poets make us  
self-forgetful, make life and the  
whole human race noble in our eyes.

Get advice as to the best books to  
read first of all the classics; do  
your utmost to understand poetic ex-  
pressions, for the poets are the great-  
est teachers in the world, the men  
who influence the future; poets are  
the great legislators of the world.

Says Emerson: "The highest minds  
of the world have never ceased to ex-  
plore the double meaning, or shall I  
say, the quadruple or more manifold  
meaning of every nervous fact in life."  
Orpheus, Empedocles, Plato,  
Plutarch, Dante, Swedenborg, Keats,  
Browning, and the masters of cul-  
ture, poets and poetry.

The poets stand among partial  
men for the complete man, and ap-  
prize us not of his wealth, but of the  
commonwealth.

The young men reverent men of  
genius, because to speak truly, they  
are more human than he is; they feel  
the pulse of the soul.

The poet is the seer, the seer,  
and represents beauty; a poet per-  
ceives all criticism is infused with a  
cast of mysticism. The signs and  
orientals of the poet are that he  
announces that which no man fore-  
tells. He is a herald of ideas.

We do not speak now of men poet-  
ical talents, but of the true poet. The  
poet has a new thought, he has a  
whole new experience to tell us, and  
he will tell us how it was with him, and  
all men will be the richer in his for-  
tune, for the experience of each man  
requires a new confession; and the  
world comes alive, waiting for his  
poet.

Goeth says in Faust:  
Mount holy poesy!  
Soar aloft heaven-high!  
Clean forth than fairest star  
Far and yet more far!  
Yet do we hear and thrill  
Gladly we learn  
—Oscar Alfred Vogelst.

## Big Gas Well

The new gas well brought in by the  
Northwestern Utilities in the Viking  
field east of Edmonton is the biggest  
producing field in the province. The  
production is about 10,000,000 cubic feet per day,  
much more than any other well in the  
field.

## Here and There

Deep gratification is felt in cana-  
dian Pacific Railway circles over the  
receipt of the following cablegram  
sent to President E. W. Beatty  
by His Royal Highness the Prince of  
Wales:—"Unwinds, South Africa,  
July 2nd—Have just heard of Mr.  
Howard's death. Please convey my  
relatives my deepest sympathy.  
(Signed) Edward P." The late Mr.  
W. B. Howard was twice in charge  
of the Prince of Wales train when  
His Royal Highness travelled over  
Canadian Pacific lines.

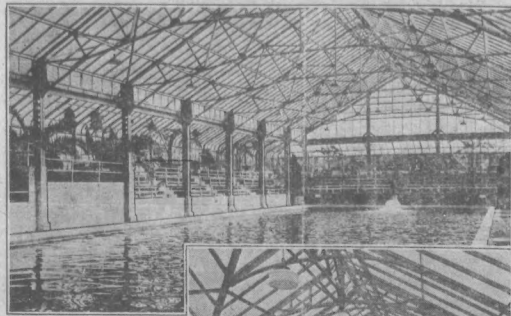

For the second time in the history  
of the newspaper industry, Canadian  
output has run ahead of that of the  
United States. During the month of  
May Canada produced 180,013 tons of  
newsprint, as compared with 129,026 tons  
in the United States. The cumulative pro-  
duction of Canadian mills for the first five  
months of the current year totals  
622,285, which favorably compares  
with a production of 622,034 in the  
United States during the same  
period.

J. L. WRIGHT

Victoria's Unique Amusement Centre  
Officially Opened

With appropriate pomp and cere-  
mony the Hon. W. G. Nichol,  
Lieut.-Governor of British Columbia,  
and D. C. Coleman, Vice-President  
of the Canadian Pacific Railway,  
opened Crystal Gardens, Victoria's  
largest and finest salt water  
swimming pool and amusement  
centre in Canada—recently.

The building takes the form of a  
winter garden, sunlit by day and  
glittering by night with an atmos-  
phere heavy with the scent of flow-  
ers and throbbing with music from  
a string orchestra. Built on a two-  
acre property, facing the fragrant  
gardens of the Empress Hotel, Crystal  
Gardens is of generous propor-  
tions, with lower portions in brick  
and concrete, and superstructure of  
steel and specially designed glass.  
The interior is a huge conservatory  
with vines and palm and plants  
growing in abundance, and in the  
center the largest salt water swim-  
ming pool on the continent.  
To give a Roman Bath effect, from  
the recesses of the promenade and  
dancing floors above, there are con-  
crete steps down to the landing of  
the pool, which is 150 feet long, 40  
feet wide and 10 feet deep at its  
deepest point. Salt water is pumped

## Upper-The Swimming-pool

from Beacon Hill Beach, a distance  
of nearly a mile, and maintained  
at a temperature of 70 degrees, and  
kept in constant circulation. The  
water is, of course, sterilized, and  
bathers, before entering the pool,  
pass under showers of varying tem-  
peratures. Among other attractions  
there are a gymnasium, hot salt  
water baths and a gallery, two danc-  
ing floors and a tea-room.

## Lower—A section at the Promenade

Anticipating that the present ses-  
son will see the beginning of a large  
tourist movement toward Vancouver  
Island, the Canadian Pacific Rail-  
way has considerably augmented its  
service between Vancouver, Victoria  
and Seattle—The Triangular Route  
and their two new steamships, the  
Princesses Kathleen and Marguerite,  
are the largest ever placed on the  
Pacific Coast service.

## Interesting - Local Items

Frank Baird spent a few days last week in Calgary on business.

Medicine Hat fair and stampede will be commenced on August 4th.

The provincial track field meet will be held in Medicine Hat this year on Wednesday, Aug. 19.

Dr. V. Brown, brother of Dr. R. W. Brown, formerly of Redcliff, was in town last week on business.

Mrs. C. J. Wilson, who has been visiting with her parents, Mr. and Mrs. Henderson returned to her home yesterday.

Owing to the increasing business at the local drug store, Edmund Vernon has been added to the staff of clerks.

Bessie Constantine, Thelma in "Her Night of Romance" at the Casino theatre, there will be a splendid comedy by Lloyd Hamilton in "Going East."

Miss Marnie Jackson, daughter of Mr. and Mrs. J. Jackson, formerly of this town but now of Seattle, was in town last Sunday renewing old acquaintances.

Come on in to the Hat tonight and see the local boys play their first game in the Five Roses cup with the Callies. It should be a good game as much depends on the result.

Slight showers of rain last night and the night before were very welcome. While they cooled the air and laid the dust there was hardly enough to do much good to the crops.

Several athletes at the glass plant are preparing for the big athletic meet in Medicine Hat next month. They have started training for the boxing and wrestling events. It is expected they will have at least four entrants in these classes.

Owing to some changes in the plan the official presentation of the League Cup, won by Redcliff this season, will not be made on Friday evening of this week as previously announced. Definite arrangements for this are not yet completed. Watch for further announcement.

In a Five Roses cup game played last Monday evening the Washers defeated the Vets 2 to 1. This is the first win for the Washers in this competition. The result of this game also places Redcliff within about half an inch of placing its hands on the Cup. Redcliff plays the Callies in this series tonight in Medicine Hat.

Fairness of the Casino theatre are laid to their praise of the excellent music furnished at each show. Many say the music is worth the price of admission alone. We must venture to say that no town its size in Canada has as good an orchestra in its theatre as we have at every performance, in the Casino here. Manager Mallin is making good his promise to give Redcliff the very best possible for the money.

Miss M. Hitchen, of Winnipeg, is spending a few weeks in town, the guest of Mrs. Chas. Newham.

Rev. and Mrs. J. A. Claxton with their daughter, Barbara, of Medicine Hat, were visitors at Gordon Memorial Hall, on Wednesday afternoon.

Mr. Lydall's wife, who had been away for some time, returned to her home in Edmonton last week. It is shown in Edmonton this week.

Jim Moran, of Lethbridge, and Al. Nicholson, of Calgary, are spending their holidays here with their grandparents, Mr. and Mrs. F. LaVelle.

The Davis brothers arrived in town on this morning's train, and are in excellent shape for the big game of the Hat tonight. Come on, with the crowd and see the game.

Reidar Bros., of the Box Springs district, shipped a car load of fine fat cattle to Winnipeg last Monday. These cattle were in excellent condition and should demand a good price in the market.

Victor Frisch, a boy of the Norton district, shipped a car load of fine fat cattle to Winnipeg last Monday. These cattle were in excellent condition and should demand a good price in the market.

Miss Ella Walker was in at present with her grandmother, Mrs. John P. W. here, has been confined to her bed with a severe attack of pneumonia. Her girl friends in town and surrounding country will be glad to learn that her condition is much improved today.

P. Campeau went to the Medicine Hat hospital yesterday where he underwent a minor operation. The operation was a success and Mr. Campeau returned home today. Although still suffering from the effects he expects to be around again in a few days.

The dry hot weather of the past week has done considerable damage to the crops in this district. Grain that was looking healthy and promising two weeks ago is now drying up for want of moisture. Although the yield is already considerably cut down, rain within the next few days would still make a big improvement.

The Lethbridge football team is about to play the Callies in Medicine Hat on Saturday of this week. Jack McKay and Dick Phillips of the Redcliff team will play with the Callies. As the Callies are putting a strong team into this it is expected to be one of the best games of the season.

The Ellison Milling Company announce that they will erect a million bushel storage elevator at Lethbridge.

Edmonton had four hold-ups in one hour last night.

A motorist was fined \$5.00 and costs in Medicine Hat yesterday morning.

Mrs. Simons, of Montreal, who is on her way home from a visit to California, is staying over in Redcliff visiting her son, H. J. Simons.

The final result of the Church Union vote in Manitoba is 522 congregations for Union and 488 against.

Dr. W. Patterson, of Argo, spent a few days in town this week visiting his mother and sister and his brother, Dr. J. H. Patterson.

Mr. and Mrs. Walter Rodgers, of Oxbow, Sask., who were motoring through states, were killed on a railway crossing at St. Cloud yesterday.

## BIRTHS

KEIR—In Nurse Patterson's hospital, Redcliff, on Monday, July 20th, 1926, to Mr. and David Kerr, a son.

NO MORE CATTLE BOATS AVAILABLE

Montreal shipping companies have announced that they will not place any more cattle ships on the St. Lawrence route to England, despite the shortage of space that causes many complaints from exporters. They state that there is little likelihood of an increase in rates, that is why they cannot make sufficient out of the business of conveying Canadian cattle to the British market.

Only the surrender and confession of Robert Scott can save his brother Russell, one time wealthy Canadian promoter, from hanging on Friday morning in Chicago.

A similar excursion to the above last Tuesday, July 20th, for the benefit of English speaking school-teachers. This tour, also lasting three weeks and covering all principal points of the Dominion was conducted by Dean Bindal Laird of Macdonald College under the auspices of the Teachers' Federation of Canada.
